

BIGHANNA™ composter

OUTLET COVER

The space between the Big Hanna outlet and the compost bin must always be covered, otherwise the air entering the Big Hanna cylinder will not be preheated. If cold air enters the cylinder, it will be difficult to obtain a good biological process.

APPROX SIZE

L	2 300 mm (7' 7")
W	1 600 mm (5' 2")
Ø	290 mm (11.4")

The cover is made extra large. It is necessary to cut the cover to fit the size of the bin being used. The picture is showing a cover before it is cut.
